Picture a cube in your mind. All of the surfaces of the cube form right angles with their adjacent faces. If you were to draw an isometric pictorial of the cube, you would see that the edges point toward 2 o ' clock and 8 o ' clock, 4 o ' clock and 10 o ' clock, and 6 o ' clock and 12 o ' clock. This idea helps when sketching isometric pictorials on writing surfaces that do not have isometric grids.
