'Angela's Ashes' is the memoir of retired schoolteacher Frank McCourt. He grew up in New York in the 1930s and in Ireland in the 1940s, in a large family, with an alcoholic father. It is a story of courage and survival against apparently overwhelming odds.

From the bestselling author of the acclaimed Chaos and Genius comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory. Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has

transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa's talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. The study of American Indian law and policy usually focuses on federal statutes and court decisions, with these sources forming the basis for most textbooks. Virtually ignored is the robust and growing body of scholarly literature analyzing and contextualizing these primary sources. Reading American Indian Law is designed to fill that void. Organized into four parts, this book presents 16 of the most impactful law review articles written during the last three decades. Collectively, these articles explore the core concepts underlying the field: the range of voices including those of tribal governments and tribal courts, the role property has played in federal Indian law, and the misunderstandings between both people and sovereigns that have shaped changes in the law. Structured with flexibility in mind, this book may be used in a wide variety of classroom settings including law schools, tribal colleges, and both
