Errata for Algorithms, 4th Edition - Princeton University

Solutions to the exercises of the Algorithms book by Robert Sedgewick and Kevin Wayne (4th edition). I found the book to be an excellent resource to learning algorithms and data structures. Since there are not many (almost none) solutions of the exercises on the Internet and the only ones available are incomplete, I decided to share my work on the exercises.

Algorithms Robert Sedgewick - YouTube

I think the algorithms reading roadmap is: Algorithms (Sedgewick) -> CLRS -> Introduction to Analysis of Algorithms -> TAOCP. However, the huge problem which makes me voting 4 star for the book is that some figures and illustrates are rendered badly (page 9, 675, 624, 621, 579, 576, 346, 326).
