Construction Management Manual

The CIPS Contract Management guide is intended to cover all those activities associated with contract management. The activities themselves are divided into two distinct but interdependent phases, upstream and downstream of the award of the contract. The principles in this guide could be applied to all contracts, from a simple order, through framework contracts, to complex construction or service contracts.

Guide to Contract Management | CIPS

Constructing a solid contract represents one of the first steps toward the success of your project, no matter what you're building or what client you are working for. A full-fledged construction contract can include as many as 10 documents specifying different aspects of the work. Successful contractors learn how to use all of them.
