Contemporary archaeology is a field of archaeological research that focuses on the most recent past, and also increasingly explores the application of archaeological thinking to the contemporary world. It has also been referred to as the archaeology of the 'contemporary past'. The use of this term in the United Kingdom is particularly associated with the Contemporary and Historical Archaeology in Theory conference group. The field forms part of historical archaeology, or the archaeology of the m

Archaeological theory refers to the various intellectual frameworks through which archaeologists interpret archaeological data. Archaeological theory functions as the application of philosophy of science to archaeology, and is occasionally referred to as philosophy of archaeology. There is no one singular theory of archaeology, but many, with different archaeologists believing that information should be interpreted in different ways. Throughout the history of the discipline, various trends of su
