Design a board game In this interdisciplinary project, pupils are asked to work in groups to design their own board game. They will investigate what makes existing board games a success before making choices about what to make for their own game. Suggestions are included, although pupils are encouraged to follow their own interests. Once a design

Design a board game - SPEN

In this Shell Centre module, groups carefully design and produce their own board games. These games are then played and evaluated by other class members. This involves developing ideas from 2-dimensional shape-and-space, together with basic concepts of probability.

Design a Board Game | STEM

1. Come up with a specific theme. Most board games revolve around a central premise or idea that helps determine how actions are taken and sets the tone for the player. When developing your theme, make a list of your interests or favorite genres and game types.

How to Design a Board Game (with Pictures) - wikiHow

Step 1: The Concept The first thing that any board game maker has to think about is the theme of the game. This could be a literal theme, such as zombies or candy, or it could be a mechanic that the game will focus on, such as dice rolling or resource management. Having a solid theme is very important to a good game.
