damage to other organs inside the abdomen, side effects from anesthesia, ectopic pregnancy (an egg that becomes fertilized outside the uterus), [and] incomplete closing of a fallopian tube that results in pregnancy."

Sterilization (medicine) -
Wikipedia

Sterilization refers to

Where To Download

any process that removes, kills, or deactivates all forms of life and other biological agents like prions present in a specific surface, object or fluid, for example food or biological culture media. Sterilization can be achieved through various means, including heat, chemicals, irradiation,

Where To Download

high pressure, and
filtration. Sterilization is
distinct from
disinfection,
sanitization, and
pasteurization, in that
those methods reduce
rather than eliminate all
forms of life and

Sterilization
(microbiology) -
