This book examines negotiations on migration in the Mediterranean. It argues that migration is a bargaining chip which countries in the South use to increase their leverage versus their counterparts in the North. This proposition opens up new understandings reframing relations of inequalities among states.

This timely book analyses the relationship between trade unions, immigration and migrant workers across eleven European countries in the period between the 1990s and 2015. It constitutes an extensive update of a previous comparative analysis – published by Rinus Penninx and Judith Roosblad in 2000 – that has become an important reference in the field. The book offers an overview of how trade unions manage issues of inclusion and solidarity in the current economic and political context, characterized by increasing challenges for labour organizations and rising hostility towards migrants.

Edited by members of the Department of Italian Studies at the University of Birmingham, and bringing together academics in Britain, Ireland, the US and Italy, this volume takes an international perspective on Italian events. It investigates how resistance to the new conservative culture has been articulated, and how this has been expressed and explained by those involved. The volume is divided into four areas: 1. The Economic and Media Landscapes, which sets the scene for the rest of the book by explaining how Italian society, and particularly its media environment, have developed in recent years; 2. Political Challenges, which discusses the main threats to the authority and policies of Berlusconi coming from within his own centre-right coalition, the left and social movements; 3. Texts, which analyses films, internet sites, television programmes, novels, newspaper articles and theatre performances that sought to resist increasingly dominant conservative norms and/or respond to events set in motion by the Berlusconi governments; 4.Experiences, covering the voices and practices of those who have opposed Berlusconi from within the cultural industries and identity movements, such as journalists, LGBT activists, feminists and associations representing immigrant communities. Wide-ranging, innovative and challenging, this volume should appeal to all those who have an interest in Italy, political-, media- and cultural studies.

"Lucht's engaging prose style and keen ethnographic eye provide for a captivating narrative on a form of population movement often in the news but rarely if ever really understood." --Jeffrey E. Cole, author with Sally Booth of "Dirty Work: Immigrants in Domestic Service, Agriculture, and Prostitution in Sicily." "Few ethnographers manage to integrate in-depth multi-sited fieldwork, enthralling narrative and innovative theory as well as Hans Lucht does in this study of existential reciprocity among Ghanaian fishermen forced by dwindling catches to embark on hazardous migrations to Europe in search of the wherewithall of life. In Lucht's capable hands, these stories become an allegory of our times." --Michael Jackson, author of "Life Within Limits: Well-Being in a World of Want." "An original, comprehensive, and skilled study, "Darkness before Daybreak "provides the reader with a real sense of the quality and meaning of existence in Ghana and in Naples, while providing enough historical and political/economic context to permit a nuanced critical analysis of globalization theory." --Peter Schneider, Professor Emeritus of Sociology and Anthropology, Fordham University, and author with Jane Schneider of "Reversible Destiny: Mafia, Antimafia, and the Struggle for Palermo."

Analysing the dynamics of the post-1990 Albanian migration to Italy, this book is the first major study of one of Europe’s newest, most dramatic yet least understood migrations. It takes a close look at migrants’ employment, housing and social exclusion in Italy, as well as the process of return migration to Albania. The research described in the book challenges the pervasive stereotype of the “bad Albanian” and, through in-depth fieldwork on Albanian communities in Italy and back in Albania, provides rich insights into the Albanian experience of migration, settlement and return in both their positive and their negative aspects.

Who are Europe's immigrants? This innovative volume provides a comprehensive overview of the immigration situation in all 25 EU countries. Each chapter is written by an expert and follows a common structure, allowing direct comparisons to be made between countries. Chapters provide a clear focus in terms of the methods used, data collected, literature reviewed and research questions addressed, and draw on hard-to-obtain material, including sources not previously published in English. Each chapter concludes with a critical assessment of the present migration situation of the country in question and its future prospects. Substantive introductory and concluding chapters offer a general overview of immigration in Europe, which complements and contextualizes the analytical and comparative insights of the individual countries. The first reference volume to provide comprehensive coverage of the EU, European Immigration will be essential for library collections and for scholars and policy-makers in the field.

The island of Sicily has for centuries been a meeting point where civilizations transformed one another and gave life to the cultural developments at the foundation of European modernity. The essays collected here explore Sicily as a place where these cultural interactions have produced conflict but also new material and intellectual exchange.

A look at the forces behind the rise of contemporary Europe's radical right.

This book explores the norms, practices, and main actors in the EU Migration System of Governance (EUMSG). Bringing a fresh perspective to the analysis of asylum and migration in Europe, the volume unpacks the European Union’s approach to migration and points to the principles and actions of EU member states. Moreover, it explores the EUMSG’s performance through the lenses of three alternative yet coexistent understandings of justice (non-domination, impartiality, and mutual recognition), thereby overcoming a unilateral ethical viewpoint and moving away from the ‘open-closed borders’ debate.
