This book provides glimpses into contemporary research in information systems & technology, learning, artificial intelligence (AI), machine learning, and security and how it applies to the real world, but the ideas presented also span the domains of telehealth, computer vision, the role and use of mobile devices, brain-computer interfaces, virtual reality, language and image processing and big data analytics and applications. Great research arises from asking pertinent research questions. This book reveals some of the authors' "beautiful questions" and how they develop the subsequent "what if" and "how" questions, offering readers food for thought and whetting their appetite for further research by the same authors.

Designed to help pre-service teachers and practicing professionals evaluate and aid students with disabilities, this comprehensive text is guided by three main principles: to aid in the assessment and evaluation of students with learning disabilities, to demonstrate Learning Disabled (LD) theory and its practical applications through the use of case studies, and to provide the most up-to-date information on recent developments and topics of debate in the field. The Tenth Edition continues to stress familiarity with state and national standards, specifically those from the Council for Exceptional Children (CEC). Web site icons are located in the text margins next to URLs for quick reference. Icons are also used to indicate when additional content on the given topic can be found on the text's web site. LD in Practice: Strategies for the General Education Classroom features throughout the text provide additional information for the general education teacher. The chapter on Attention Deficit Disorder includes information on neuro-developmental problems. Coverage of diversity is highlighted by callouts in the text. Houghton Mifflin Video Cases, four- to six-minute video modules presenting real classroom scenarios, enable students to observe the day-to-day challenges and rewards of teaching from the convenience of their computers. Available on the Online Teaching and Study Centers, HM Video Cases are enhanced by classroom artifacts, Viewing Questions, Interview Transcripts, Key Terms, and bonus video footage.

This compelling novel follows four women as they learn to balance children, estranged husbands, boyfriends, and problems at work through their faith in God. Michelle, Tonya, Mrs. Judson, and Miz Ida. African-American, white, rich, poor -- they seemingly have nothing in common. Yet every day they face the complex realities of twenty-first-century urban life as they try to balance their needs with their belief in God. Through the course of a year, these women must come to terms with the past, discover their true identities, and recognize the unexpected miracles that reveal God's all-encompassing love. These four women entertain us and invite us to join in their lives. As they welcome us, they also introduce us to the men in their lives. The men play supporting roles, adding color and zest to the lives of the Cover Girls. Bishop Jakes knows the struggles real women encounter and the losses that make it difficult to face the future. He brings compassionate insight and deep wisdom to this novel and proves that he is not only a gifted preacher, but a born storyteller.

Book eleven of the celebrated Deverry series, an epic fantasy rooted in Celtic mythology that intricately interweaves human and elven history over several hundred years.

This hilarious middle-grade novel with illustrations throughout sees Tomas discover that he can grow dragons in his own garden! When Tomas discovers a strange old tree at the bottom of his grandfather's garden, he doesn't think much of it. But he takes the funny fruit from the tree back into the house and gets the shock of his life when a tiny dragon hatches! The tree is a dragon fruit tree, and Tomas now has his very own dragon, Flicker! While Tomas finds out that life with Flicker is fun, he also finds that it is very...unpredictable. Yes, dragons are wonderful, but they also set fire to your toothbrush and leave your underwear hanging from the TV antenna. Tomas has to learn how to look after Flicker---and quickly! And then something extraordinary happens: More dragon fruits appear on the tree! Now it's official, Tomas is growing dragons.
