The push jerk in CrossFit is the best way to find out the maximum amount of weight you can push over your head. It will help you develop shoulder strength, coordination, and the ability to sequence movements. Performing a heavy squat clean and jerk will help you develop all of the muscles you need to become an explosive, powerful athlete. You are using your whole body to perform this compound movement, and moving the bar up overhead will build strong arms and strong shoulders.

The Clean and Jerk. By CrossFit January 21, 2020. Twitter Mail. In the most common variation of the clean and jerk, the athlete receives the load in a full front squat, then uses the split position in the jerk. For most athletes, these positions allow for the greatest loads to be lifted. During the clean, the athlete must pull the weight only as high as needed to move into the bottom of the squat.
