Nobody could fix her or claim her. She belonged to nobody. Pain was her game. Self-deprecating and guilt-ridden she-wolf, Teagan Rourke, has been to hell and back. Now, all she wants is agony to reinforce what she already knows--she doesn't deserve happiness. Frequenting Castle, a local BDSM club, and succumbing to a sadist's wishes is the only "happily ever after" she's looking for. And all the magick in Sanctuary won't change her mind. But when Teagan gets paired with a new Dom, Finn O'Connor, it seems that all bets are off. The type of pain this sexy and rugged wolf might inflict might be too much for her to endure. Swearing to never open herself up again to the type of suffering that love can cause, Teagan tries to deny the pull she feels for him. But Finn isn't giving up; he's waited too long for a perfect mate like her. It's up to him to show her the light beneath the darkness of her past. Can a little luck of the draw turn into fated magick for Teagan and Finn. Key Words: wolf, werewolf, werewolves, dragon, dragons, vampire, fairy, fae, faerie, siren, post-apocalyptic, dystopian, shifter, romance, paranormal romance, suspense, erotic, action, adventure, fantasy, texas, western,

small town, futuristic, BDSM elements

Alien meets Alexandra Bracken's *The Darkest Minds* in this thrilling debut novel about prison-guard-in-training, Kenzie, who is taken hostage by the superpowered criminal teens of the Sanctuary space station—only to have to band together with them when the station is attacked by mysterious creatures. Kenzie holds one truth above all: the company is everything. As a citizen of Omnistellar Concepts, the most powerful corporation in the solar system, Kenzie has trained her entire life for one goal: to become an elite guard on Sanctuary, Omnistellar's space prison for superpowered teens too dangerous for Earth. As a junior guard, she's excited to prove herself to her company—and that means sacrificing anything that won't propel her forward. But then a routine drill goes sideways and Kenzie is taken hostage by rioting prisoners. At first, she's confident her commanding officer—who also happens to be her mother—will stop at nothing to secure her freedom. Yet it soon becomes clear that her mother is more concerned with sticking to Omnistellar protocol than she is with getting Kenzie out safely. As Kenzie forms her own plan to escape, she doesn't realize there's a more sinister threat looming, something ancient and evil that has clawed its way into Sanctuary from the vacuum of space. And Kenzie might have to team up with her captors to survive—all while beginning to suspect there's a darker side to the Omnistellar she knows.

"Impatience with the long-suffering nature of all grief is not uniquely Catholic. The criticism is that survivors, and others who grieve, cling to an isolating distinction too long. Yet, like all people who suffer, we are, after taking all the right steps, still helpless to bestow healing on ourselves. We all need to be saved." T. Pitt Green In this short work about fierce faith, Green has crafted an unflinching and charming memoir to showcase the true dimensions of a scourge within the Roman Catholic Church from which most people still recoil. Doing so, she lays a cornerstone for healing and reconciliation badly needed in order to free Catholics to thrive with single-minded spiritedness in the discipleship to which they have been called. Her work challenges prevailing assumptions about the motives and psychological life sentence imposed on survivors, reminding readers that healing and forgiveness really do exist - on none other than God's terms. Her message is surprisingly inspiring for all Catholics, and in particular for Catholic priests.

The last days are upon us. In the near future, a man will find his destiny by looking deep into the past. The battle for man's birthright will no longer be fought in the shadows. Against a great evil, a handful of brave humans have preserved man's hope in the darkest of days. In the vast darkness, a small gem shines with the light for the future. A beacon of hope for those who seek its shelter. A place known as Sanctuary.

In his haunting follow-up to the acclaimed *Beneath the Mountain*, Luca D'Andrea returns to the stunning Italian landscape of Alto Adige in this clever, twisting thriller that follows a woman on the run from her crime boss husband and the assassin sent to kill her. The Italian region of Alto-Adige is the northernmost part of the county, bordering Switzerland and Austria. The majestic Dolomites mountain range encompasses the area creating stark, beautiful landscapes. But this place of beauty also hides an evil side. For within the shadows of the towering Dolomites' peaks, one man has forged a reign of terror. Since World War II, when he was only a boy, Herr Wegener has been entrenched in a black market crime organization. He is feared by all and controls everyone: politicians, police, and his wife Marlene. But Marlene has finally had enough... Unable to take her husband's abuse and cruelty anymore, Marlene has reached her breaking point and goes on the run—but not before stealing millions of lire worth of sapphires from Wegener's safe as well as his car. Marlene was a young woman when Wegener fell into her life by chance while she was working at a hotel to earn money for her family who still lives in a rural mountain town. He represented protection and sanctuary—until she found out too late how he made his money. But no one escapes Wegener, and he will make sure Marlene pays for her betrayal. Wegener sends a notorious assassin to kill his wife—an assassin known solely as The Trusted Man and who always gets the job done. Once he is given an assignment, he sees it through to the end no matter how difficult. Normally, this wouldn't be a problem for Wegener. But then one of his men discovers the one fact that would make him want Marlene alive. She's pregnant with his son... With nightmarish villains and kind-hearted heroes, *Sanctuary* is a fairy tale-esque thriller that will leave readers racing through its pages to keep up with a cat and mouse game between a lunatic crime boss and his desperate, pregnant wife.

A funny, real look at the crazy life here at the Sanctuary. Little Old Dog Sanctuary is a small hospice for senior and special needs dogs. They only accept dogs from high kill, rural shelters. There are thousands of sad books about animal cruelty, abuse, and abandonment culminating with an emphasis on blame, shame, and guilt. This is not one of those books. Find out why. Read it today.

As Book 2 begins, the mastermind behind decades of extortion and murder is finally imprisoned, and the citizens of Sanctuary go back to their normal lives. There is a growing movement for social reform, including the relaxation of laws regulating marriage and assets ownership. Traditionalists fear this will lead to their society's disintegration and counter with greater restrictions. As tensions rise, a university professor is suspected of destroying historical records, a father is pressured to cut ties to a beloved daughter who has eloped, and an otherwise rational young man worries that his new wife's seizures are of a diabolic origin. Violence erupts once again in a land that has forbidden it. A bloody coup attempt at the palace is put

down, but more insidious threats remain as shadowy organizations take root.

The frontier of New Mexico in the 1870 is the location of conflict between a mother and the man who wants to take her son. Bekka Hudson has done everything to take care of her sons. Now the father of the oldest wants him back. She was not going to let that happen. Jeb Morgan was sent to get Bekkas son and bring him to his father. He was not happy about the assignment and not happy about Bekkas attitude. The clash of the two leads to violence and romance all in the valley Bekka called the Sanctuary.

The “moving” true story of a woman fighting to give a group of chimpanzees a second chance at life (People). In 1997, Gloria Grow started a sanctuary for chimps retired from biomedical research on her farm outside Montreal. For the indomitable Gloria, caring for thirteen great apes is like presiding over a maximum-security prison, a Zen sanctuary, an old folks’ home, and a New York deli during the lunchtime rush all rolled into one. But she is first and foremost creating a refuge for her troubled charges, a place where they can recover and begin to trust humans again. Hoping to win some of this trust, journalist Andrew Westoll spent months at Fauna Farm as a volunteer, and in this “incisive [and] affecting” book, he vividly recounts his time in the chimp house and the histories of its residents (Kirkus Reviews). He arrives with dreams of striking up an immediate friendship with the legendary Tom, the wise face of the Great Ape Protection Act, but Tom seems all too content to ignore him. Gradually, though, old man Tommie and the rest of the “troop” begin to warm toward Westoll as he learns the routines of life at the farm and realizes just how far the chimps have come. Seemingly simple things like grooming, establishing friendships and alliances, and playing games with the garden hose are all poignant testament to the capacity of these animals to heal. Brimming with empathy and entertaining stories of Gloria and her charges, *The Chimps of Fauna Sanctuary* is an absorbing, bighearted book that grapples with questions of just what we owe to the animals who are our nearest genetic relations. “A powerful look at how we treat our closest relatives.” –The Plain Dealer “I knew the prison-like conditions of the medical research facility from which Gloria rescued these chimpanzees; when I visited them at their new sanctuary I was moved to tears. . . . Andrew Westoll is a born storyteller: *The Chimps of Fauna Sanctuary*, written with empathy and skill, tenderness and humour, involves us in a world few understand. And leaves us marveling at the ways in which chimpanzees are so like us, and why they deserve our help and are entitled to our respect.” –Dr. Jane Goodall “This book will make you think deeply about our relationship with great apes. It amazed me to discover the behaviors and feelings of the chimpanzees.” –Temple Grandin, author of *Animals in Translation*

Successful photographer Jo Ellen Hathaway realizes she must return to the Southern resort run by her estranged family and, with the help of one man, sets out to discover who is stalking her and who killed her mother. Reissue.
