Masklin must find a way to get to the 'launch' of a 'communications satellite' (whatever that is). After all, everyone knows that nomes are faster and smarter than humans, and now they have a secret weapon . . . The final collection of short stories from the incredible Sir Terry Pratchett! Imagination is an amazing thing. It can take you to the top of the highest mountain, or down to the bottom of the deepest depths of the sea. This where it took Doggins on his Awfully Big Adventure: a quest full of magic and flying machines. (And the world's best joke - trust me, it's hilarious.) It took three young inventors to the moon (where they may or may not have left a bottle of lemonade) and a caveman on a trip to the dentist. You can join them on these adventures, and many more, in this incredible
